

Tradition Windows

a division of Tradition Home Designs Inc.

Looks old. Works new.

Now, an important evolution in traditional wood window technology. They were always beautiful and very efficient... not always convenient...thought some. Now we've accomodated your every whim. You can now remove both top and bottom sash for cleaning. The storms can be removed and replaced from the inside. No more ladders to climb. Each and every edge is completely weatherstripped, guaranteeing a draft-proof fit.

Our fine wooden muntins are authentic in every detail. Each and every sash moves wonderfully...with only a fingertip. There's no jamb extensions needed.

No expensive cabinet makers required.

Our windows come with exterior and interior trim, every piece in perfectly clear pine. It doesn't get any better! All you see is wood. The technology is hidden. After all, we're know for authenticity. Now, we're able to say

Tradition Windows are state-of-the-art.

The Tradition Colonial

Tradition Windows is a division of Tradition Home Designs Inc, specializing in designing, renovating and building period homes throughout North America since 1971. Tradition windows prove popular and most appropriate in historic homes, cottages, lodges, museums, golf club houses, inns and institutions.
